THE TULIP SESSIONS
2026

The Tulip session is one of the most Iconic Session of the year!
As it is so special I just take very few of these sessions, these are done either very early mornign or Late in the evening. I can't book you in on a specific day because the good outcome of the session depends on the weather and on the tulps we find.

For this we need to wait until the fields are ready, this is usually from mid April until the fist weeks of May.

This year all my Tulip session will be held at the Tulip Barn!

by us in consultation.

What to Wear for Your Tulip Photo Session

To keep the photos timeless, soft, and harmonious with the beautiful tulip fields,
I recommend choosing simple and natural outfits.
Colors. Soft and pastel tones photograph beautifully among the tulips. Great options include:
Cream / ivory, Soft pink, Light blue, Sage green, Beige / sand, Lavender, Soft yellow.
Try to avoid very bright or neon colors, as they can distract from the natural beauty of the flowers and from your
connection in the photos.
Patterns & Text
For the most elegant look:
Avoid large logos or text on clothing
Avoid busy or very strong patterns
Choose simple, clean fabrics
Solid colors or very subtle patterns work best.
The goal is effortless and natural. Casual but elegant outfits work perfectly Flowy dresses, soft knits, linen, and natural fabrics photograph beautifully. Comfortable outfits help everyone feel relaxed during the session

Coordination for Families

Try to coordinate colors, not match exactly
Choose 2–3 complementary colors and build outfits around them
Most Important
Please don't stress too much about outfits. The most important thing is that you feel comfortable, confident, and like yourself.
Beautiful moments and connection matter much more than perfect clothing.
